Samuel Yona Killagane

Software Developer

I am a visionary and driven person, which are qualities that are essential for web development. I have an abundance of energy and passion, and I'm more than eager to follow my interests wherever they may lead me. I'm a passionate, outgoing, multi-talented soul with a built-in capacity to inspire and amuse. I'm never content to simply generate ideas. Instead, I feel compelled to take action on them nearly immediately.
